

Get up, get out, and get living.

“

**WITH JUST FOUR LASER TREATMENTS, I'M BACK  
TO FULL USE, PAIN FREE!**

I had an ulnar nerve release in 1995. A lot of scar tissue was removed. I was mostly pain free for 12 years. When the scar tissue grew back, it was just as painful as right before surgery. I was miserable and tried many different types of therapy sessions—perhaps 40 and the pain still persisted, and with just four laser treatments, I'm back to full use, pain free!

Lauren | Ulnar Nerve/Pain (Scar Tissue)

Ulcerations  
& open wounds

## HELPS RELIEVE AGGRAVATING SYMPTOMS

Aches	Swelling
Burning	Tightness
Numbness	Tingling
Soreness	Twitching
Spasms	Weakness
Stiffness	

## Remember when it didn't hurt?

FDA-approved, therapeutic Class IV Laser treatment is a proven solution for chronic and acute pain.

- State-of-the-art technology delivers deep, penetrating light energy to injured areas
- Works on a cellular level to promote the body's natural healing process
- Bio-stimulates tissue growth and repair, unlike many drug treatments that mask symptoms
- Increases metabolic activity in cells, which accelerates healing time and dramatically decreases pain, inflammation, and scar-tissue formation

We utilize the most powerful laser in the medical marketplace so you can get up, get out, and get living.

## THE BENEFITS OF DIOWAVE™ 60-WATT LASER SYSTEM:

- Promotes cell renewal and restoration, improves range of motion, and reduces inflammation
- Many conditions show signs of improvement after the first or second treatment

BrightWave Pain Therapy is an effective alternative to opioids.

## QUICK AND PAINLESS TREATMENTS WITH NO DOWNTIME:

- Non-invasive
- Non-toxic
- No known side effects
- No drug interactions
- Well-tolerated by the elderly
- Normal activities can be resumed right away
